

Kitchen Kind

TRANSFORMING THE ONE YOU HAVE, TO ONE YOU LOVE

Kitchen Kind

A family run business with over 20 years' experience in the kitchen industry, specialising in engineered stone worksurfaces. Our worktop surfaces offer versatility in terms of time and cost. We also offer a door replacement program and can supply and fit new appliances.

Transforming the one you have, to one you love.

Many years of quality service in Kitchen Kind

'What's in a name?'... We aim to provide a service with quality in mind. A service that encompasses the true meaning behind kind. We will provide time, real advice, quality workmanship in a friendly, helpful and considerate manner. Our service will aim to listen, guide and inspire to help create the kitchen you've always desired. A kitchen company Transforming the one you have, to one you love'. 

Kitchen Kind

TRANSFORMING THE ONE YOU HAVE, TO ONE YOU LOVE

The up-cycle process

The up-cycle process creates an affordable and stylish look as well as being kind to the environment. Rather than ripping out and disposing of your old worktops we can simply go over the top. ♡

How we work

A professional service, from start to finish

Step 1. We Design

There are so many choices in styles when planning to update a kitchen and it is hard to know where to start. We can offer this service in the comfort of your own home or in our creative hub within the showroom where there will be plenty of refreshments on hand!

Step 2. We Measure

Once the design is finished we can arrange a 1 -2-hour slot to measure your existing worksurface and or doors and produce an exact template. During this phrase we often revisit plans and consider possible additions such as a sink and tap.

Step 3. Fabricate

We will fabricate worksurfaces, splashbacks and cabinetry to ensure ease of process and minimal disruption your end. Kitchen Kind have the skilled craftsmen, specialized machinery and technologies to execute even the most complex of projects.

Step 4. We Fit

We will arrive between 8 – 8.30am the morning of the installation and aim to be finished by late afternoon. Depending upon the size of the job, an 'average' UK Kitchen worksurface can be installed within just one day! A full kitchen makeover (worktops, doors and appliances) can be completed within 2 – 3 days.

Step 5. Customer Satisfaction

Once the installation is complete we encourage our customers to provide feedback to ensure we continue to strive for excellence in service.

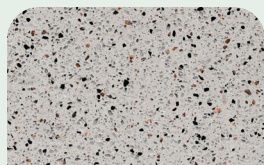

'We have no hesitation in strongly recommending Kitchen Kind. A meticulous service with highly skilled craftsman.'

Sept 2019 – Mr & Mrs F – Dorset.

Work Surfaces

Kitchen Kind are proud to supply Australian made Earthstone. The most advanced and durable quartz surface in the marketplace. It is made with over 90% natural quartz combined with a high-performance acrylic polymer offering a more uniform and contemporary stone worksurface. A quartz worksurface will create a spectacular natural focal point within your kitchen. It's non-porous texture will ensure to resist stains allowing for a 'no fuss' approach, leaving you more time to spend with the family.

Splashbacks

Why not go over the top and transform your tired tiles with our up-cycle quartz surfaces? Splashbacks will help maintain cleanliness with ease of use. They will help keep a kitchen looking fresh and prevent splashes and stains from spoiling the look. ♡

Larger Surfaces

There is no end to the versatility and durability of Earthstone surfaces. Such unique qualities can be applied to surfaces in other areas of your home, for example shower panels, washrooms, wet rooms, flooring and even a Jacuzzi. Large panels, seamless joins will create a beautiful waterproof system which are easy to maintain, allowing for more quality time to enjoy a high standard of living. ♡

Transforming the worksurface you have, to one you love.

Doors

Kitchen Kind specialise in replacement doors, custom made cabinetry crafted specifically for your kitchen. Kitchen cabinetry is no longer just about storage. With custom made doors we can achieve a holistic approach considering functionality, adaptations and unique design to help complete the look. With over 100 colour and style choices Kitchen Kind can offer something unique that will help build character, inspire and impart your personality within the room. Our door replacement service will enable you to achieve your dream kitchen at a fraction of the cost allowing for some money spare for those finishing touches.

Valore

Discover the Valore collection. No compromise! With Valore a door is not just a door at any price. Integrity of quality, design and finish makes value truly valuable. The contrast of colours helps to maintain a modern look whilst creating a warm homely atmosphere. It's the perfect design to help you entertain all year round. ♡

Handles

Choosing the right handles can make all the difference to the design and look of your finished kitchen. Door handles are often a crucial detail that can be overlooked or left to the last minute. What ever your choice, oversized, understated, handleless or traditional it can often add another design feature to your kitchen. Kitchen Kind offer a wide range of handles with over 100 different varieties to help really define the look of a kitchen. ♡

Sinks & Taps

The modest Kitchen sink and tap is central to preparing, cooking and cleaning up and sees the most action in any kitchen. It is important to invest in a quality sink and tap to suit your needs. Kitchen Kind offer a range of sinks and taps from well known brands such as Franke and Blanco proposing a variety of choice in terms of style and functionality. Why Kitchen Kind? At Kitchen Kind we will supply and fit the sink and tap of your choice, replace plumbing fixtures and dispose of your old as part of the transformation process. Not only do we make the buying and installation process hassle free we will continue our after-care support alongside Blanco and Franke.

Transforming the one you have, to one you love.

Materials

Stainless Steel

Stainless steel sinks have broad appeal offering clean lines and durability. Stainless steel sinks are not as hard as other materials so less likely to break glassware or crockery. Stainless steel will keep their brilliance and value for years to come, longevity in quality sinks.

Ceramic Sinks

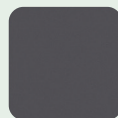

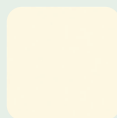

Ceramic sinks are probably one of the most robust type of sink in the market today. Ceramic sinks have increased in popularity over the years acting as a stunning focal point exhibiting a feeling of true quality. As well as looking great ceramic sinks are practical too as they are very easy to keep clean and extremely durable.

Composite Sinks

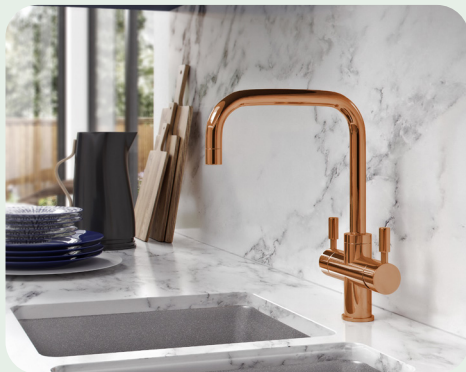

Composite sinks are a combination of crushed stone, quartz or granite and mixed with a resin, similar to the countertops. Composite sinks can come in various textures, smooth seamless or slightly roughened.

Can withstand heat better than solid surfaces and colour penetrates through the composite allowing for various colour options.

Taps

There is so much to consider when choosing the right tap. It is the most used appliance within the home, so quality and ease of use is highly important. We are here to help with making those decisions. At Kitchen Kind we supply both Franke and Blanco tap.

Kitchen Kind will listen to your requirements and help guide you to the right sink with both design and functionality in mind. Our team will be able to point you in the right direction and show colour and material samples as well as looking at taps to compliment the sink. Quality in mind at Kitchen Kind, all sink and tap installations come with manufacturers warranties. ♡

A service... transforming the one you have, to one you love. ♡

Discover our latest range

The kitchen is central to functional family life. A family will adopt and learn what is good and how it can be eaten and take those rich experiences and impart them in their own home creating their own food culture for generations to come. Therefore, it is vitally important when considering kitchen appliances, you pay thought to what will work for you and your family.

Ovens

There is so much to consider when choosing the right oven. What key factors are important to you? It maybe you do not have time to clean an oven and so a pyrolytic oven may serve this need well. Space maybe a limiting factor? However, you like the idea of a dual-purpose oven and this can be achieved by state-of-the-art Samsung 'Divide & Conquer' flexible door two temperature ovens. Whatever the need, Kitchen Kind will listen and help guide you to the right oven, the right brand with the all essential after care support to help.

Hoods

Cooker hoods play an important practical role within the kitchen ensuring we cook in comfort removing airborne grease, steam and unwanted cooking odours. Cooker hoods also offer the chance to add a design element to the room in terms of form, light and texture.

of cooking appliances

Hobs

The first point to consider when deciding upon a hob is the fuel source. Once a simple decision between gas or electric. Recent times have seen the launch of induction, ceramic and dual fuel hobs. It is important to also consider cost in terms of initial outlay and ongoing cost, ease of use, cleaning and safety features as well as handy qualities such as touch control, timers and smart technology.
